

SHOP RAG

Greetings!

We are currently sold out, but **we are pre-selling the last two buildings**. There is a maximum of 14 garages that will be available. That number could be significantly fewer depending on the size of garages purchased, so don't delay. There are no plans for further expansion, so this is your last to get your man cave and join our community.

This month we will share an interesting story and give you some reasons to visit Wisconsin.

Stay well-
Joe Bazey

Have you heard of [Zoox](#)? If not, you probably will be soon.

Zoox is an autonomous driving vehicle. It is more than a car with a computer, it is purpose built vehicle. According to the company, "We are applying the latest in automotive, robotics and renewable energy to design a symmetrical, bidirectional, zero-emissions vehicle from the ground up to solve the unique challenges of autonomous mobility."

At one point Zoox was valued at \$3.2 billion, money raised a couple years ago to fund the start-up. Within the last week, CEO Aicha Evans reportedly is in advanced talks to sell the company to Amazon.

The future of transportation is on the verge of change. It is both fascinating and confusing for those of us who love the experience of driving.

Race Across the Border

If you're looking for things to do this summer you may have to cross the border into Wisconsin.

While Minnesota is slowly opening, Wisconsin has opened up more opportunities. While [Brainerd International Raceway](#) will be allowed to open next week, it is without spectators.

In Wisconsin you can spectate at [Rock Falls Raceway](#) and [Cedar Lake Speedway](#).

It is going to be a different summer than we're used to. One of positives, is that if you love your car and you love to drive, gas is cheap and the roads are open.

We hope you'll get out and put some miles on. Organize a small cruise with friends, get some takeout or pack a picnic, drive down some new roads, and make the best of it.

Happy Motoring!

Do you like us?

We hope so!
